https://youtu.be/QEm6oP_w7nM?si=cTm-B7EgKRFscIEL

Carbon neutral products are **products whose CO₂-emissions related to its production have been calculated and compensated for by verified carbon offset project.**

100% Renewable Fibres

Sourced and produced for environmental sustainability, our paper is made using **100% renewable plantation fibres** from certified sustainably managed forests.

Verified Carbon Footprint

Our paper's carbon footprint is third-party verified and certified by SCS Global services and is based on **Cradle-to-Grave LCA methodology**.

The value chain integration from plantation to paper products also ensures lower carbon footprint.

Our carbon neutral paper is achieved through purchased and retired verified offsets credits.

Objective:

- To demonstrate PaperOne™'s leadership and commitment to decarbonisation and neutralisation by meeting the requirements of PAS 2060, the international standard for carbon neutrality.
- To increase brand presence with strong storytelling communication on carbon-neutral.
- To increase product value and upgrade PaperOne™ Digital 80gsm as a carbon-neutral product as PaperOne™ Digital is A+ premium segment flagship range
